

# Megan Bontrager

University of California, Davis  
Department of Evolution and Ecology  
mgbontrager@ucdavis.edu

---

**Research interests**      My research focuses on understanding the factors that shape geographic ranges, how populations adapt to their environments, and how species will respond to climate change. I approach these questions using a variety of methods, including large-scale field experiments, meta-analysis, landscape genetics, and climatic niche modelling.

**Academic positions**      **University of California, Davis**      2018–  
Postdoctoral researcher  
Faculty advisors: Sharon Strauss, Jennifer Gremer, Johanna Schmitt

**Education**      **University of British Columbia**      2012–2018  
Ph.D. in Botany  
Title: *Pollination, genetic structure, and adaptation to climate across the geographic range of Clarkia pulchella.*  
Advisor: Amy Angert  
Committee: Sally Aitken, Michael Whitlock, and Jeannette Whitton

**University of California, Santa Cruz**      2008–2011  
B.Sc. in Plant Sciences  
B.Sc. in Molecular, Cell, and Developmental Biology  
Undergraduate research advisor: Ingrid Parker

**Cabrillo Community College**      2007–2008  
Prerequisites for transfer to B.Sc.

## Preprints

2.      **M. Bontrager** and A. L. Angert (2018). Genetic differentiation is determined by geographic distance in *Clarkia pulchella*. bioRxiv 374454.
1.      **M. Bontrager**, C. D. Muir, and A. L. Angert (2018). Geographic and climatic drivers of reproductive assurance in *Clarkia pulchella*. bioRxiv 372375.

## Publications

7. **M. Bontrager** and A. L. Angert (2018). Gene flow improves fitness at a range edge under climate change. *Evolution Letters*. Early view: <https://doi.org/10.1002/evl3.91>.
6. D. E. Gamble, **M. Bontrager**, and A. L. Angert (2016). Floral trait variation and links to climate in the mixed-mating annual *Clarkia pulchella*. *Botany*, 96(7):425–435.
5. **M. Bontrager** and A. L. Angert (2016). Effects of range-wide variation in climate and isolation on floral traits and reproductive output of *Clarkia pulchella*. *American Journal of Botany*, 103(1):10–21.
4. J. A. Lee-Yaw, H. M. Kharouba, **M. Bontrager**, C. Mahony, A. M. Csörgő, A. M. Noreen, Q. Li, R. Schuster, and A. L. Angert (2016). A synthesis of transplant experiments and ecological niche models suggests that range limits are often niche limits. *Ecology Letters*, 19(6):710–722.
3. I. M. Parker, M. Saunders, **M. Bontrager**, A. P. Weitz, R. Hendricks, R. Magarey, K. Suiter, and G. S. Gilbert (2015). Phylogenetic structure and host abundance drive disease pressure in communities. *Nature*, 520(7548):542.
2. **M. Bontrager**, K. Webster, M. Elvin, and I. M. Parker (2014). The effects of habitat and competitive/facilitative interactions on reintroduction success of the endangered wetland herb, *Arenaria paludicola*. *Plant Ecology*, 215(4):467–478.
1. J. M. Yost, **M. Bontrager**, S. W. McCabe, D. Burton, M. G. Simpson, K. M. Kay, and M. Ritter (2013). Phylogenetic relationships and evolution in *Dudleya* (Crassulaceae). *Systematic Botany*, 38(4): 1096–1104.

## Non-refereed contributions

3. K. R. Acierto, R. S. Hendricks, **M. Bontrager**, and I.M. Parker (12 December 2012). Transplant success for the endangered herb *Arenaria paludicola* at Golden Gate National Recreation Area: effects of site, propagation type, and competition. Technical report to the U.S. Fish and Wildlife Service and the California Department of Fish and Game.
2. I. M. Parker and **M. Bontrager** (29 February 2012). Propagation and establishment of new populations of marsh sandwort (*Arenaria paludicola*) in Santa Cruz County. Technical report to the U.S. Fish and Wildlife Service and the California Department of Fish and Game.
1. **M. Bontrager** and I. M. Parker (26 September 2011). Effects of serpentine soil on plant community composition in natural populations and seedling growth in a bioassay. Technical report to Midpeninsula Regional Open Space District.

Fellowships and awards	UBC Biology teaching award (500 CAD)	2018
	Best research presentation, Brackendale Ecology and Evolution Retreat	2016
	Li Tze Fong Memorial Fellowship (25000 CAD)	2016
	Botanical Society of America Genetics Section Grad Research Award (500 USD)	2016
	Botanical Society of America Graduate Student Research Award (500 USD)	2016
	Washington Native Plant Society Research Grant (1200 USD)	2016
	Vladimir J. Krajina Prize in Plant Ecology (2000 CAD)	2013
	UBC Four Year Doctoral Fellowship (102400 CAD)	2012

## Selected presentations

**M. Bontrager\***, C.R. Mahony, D.E. Gamble, R.M. Germain, A.L. Hargreaves, E.J. Kleynhans, C.S. Leven, K.A. Thompson, and A.L. Angert. (6 January 2018) Climate anomalies drive local maladaptation. Presentation at the American Society of Naturalists meeting, Asilomar, California.

**M. Bontrager\*** and A.L. Angert. (24 June 2017) Effects of gene flow on the performance of *Clarkia pulchella* at the species' northern range margin. Presentation at Evolution. Portland, Oregon. Video link.

**M. Bontrager\*** and A.L. Angert. (9 May 2017) Effects of gene flow on the performance of *Clarkia pulchella* at the species' northern range margin. Presentation at the Annual Meeting of the Canadian Society for Ecology and Evolution. Victoria, British Columbia.

**M. Bontrager\*** and A.L. Angert. (5 November 2016) Effects of gene flow on the performance of *Clarkia pulchella* at the species' northern range margin. Presentation at Ecology and Evolution Retreat. Brackendale, British Columbia.

**M. Bontrager\*** and A.L. Angert. (16 April 2016) Effects of gene flow on the performance of *Clarkia pulchella* at the species' northern range margin. Poster presentation at Evo-Wibo. Port Townsend, Washington.

**M. Bontrager\*** and A.L. Angert. (22 May 2015) Effects of range-wide variation in climate and isolation on floral traits and reproductive output of *Clarkia pulchella*. Presentation at the Annual Meeting of the Canadian Society for Ecology and Evolution. Saskatoon, Saskatchewan.

**M. Bontrager\***, K. Webster, M. Elvin, and I.M. Parker. (12 January 2012) Factors influencing growth and survival of a critically endangered plant, *Arenaria paludicola*. Presentation at the California Native Plant Society 2012 Conservation Conference. San Diego, California.

J. Yost, **M. Bontrager\***, S. McCabe, K.M. Kay, and M. Ritter. (11 July 2011) A classification of California's diploid *Dudleya* species based on molecular phylogenetic data. Poster presentation at Botany 2011 Conference. St. Louis, Missouri.

\* presenting author

Professional experience	<b>Staff research associate</b>	2011–2012
	Supervisors: Ingrid Parker and Greg Gilbert Trained and led crews in the field, greenhouse, and molecular biology lab. Designed greenhouse experiments and field monitoring protocols.	
	<b>Research assistant</b>	2010–2011
	Supervisors: Ingrid Parker, Kathleen Kay, and Jenn Yost Developed and performed molecular protocols and greenhouse experiments. Assisted with field experiments.	
Mentoring and teaching	Head teaching assistant, Biostatistics	2017–2018
	Teaching assistant, Plant Ecology	2017
	Teaching assistant, Phytogeography	2016
	Advisor to undergraduate honours thesis student	2016–2017
	Supervisor of undergraduate research volunteers	2014–2017
Service and outreach	Grad representative, Biodiversity Research Centre postdoc search committee	2018
	Co-organizer of Biodiversity Centre Women in STEM Workshop	2017
	Coordinator of Forum, a weekly meeting of UBC plant ecologists	2013–2016
	Modules in Ecology and Evolution Development, curriculum developer	2013–2015
	UBC Let's Talk Science, visiting scientist in primary school	2012–2014
	UBC Let's Talk Science, science fair mentor	2012–2013
	Beaty Biodiversity Museum Nature Club, volunteer	2012–2013
Selected graduate courses	Bioinformatics for evolutionary biology (Greg Owens, Kay Hodgins)	2016
	Data management for biologists (Andrew MacDonald)	2016
	Population ecology (Amy Angert)	2015
	Species distribution modelling (Tom Edwards)	2014
	Data analysis in R (Thor Veen)	2013
	Population genetics (Michael Whitlock)	2012
Professional memberships	American Society of Naturalists	
	Botanical Society of America	
	Canadian Society for Ecology and Evolution	
	Society for the Study of Evolution	
	Washington Native Plant Society
